

127 Attendees

The Future of Repair

AUTEL ADAS TRAINING / SEPTEMBER 9TH

Buy Wise welcomed 127 shop owners, fleet managers and municipal representatives for an evening focused on ADAS and the future of vehicle repair. Autel's Kevin Oliver delivered an engaging presentation, while Dan Fresolone of Standard Motor Products brought advanced sensors to life through hands-on demonstrations. The event united longtime customers, new faces and new shops from our growing Bridgewater market for valuable learning and collaboration!

MORE TRAINING..MORE SUPPORT

DIAGNOSTIC STRATEGIES

BRIDGEWATER COMMUNITY TRAINING / SEPTEMBER 16TH

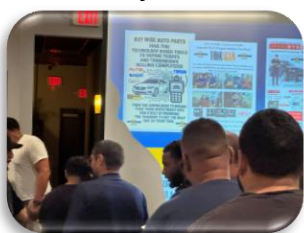

DRIV Garage Guru Dan Mirocco, assisted by Todd Feuerstein guided customers through challenging real world case studies and logical paths from diagnostics to repair. For many new Bridgewater customers, it was their first look at how Buy Wise supports shops beyond selling parts, with technology, training and solutions for the bay!

TRAINING IN THE BAYS

AUTOBAHN TUNING LUNCH & LEARN / SEPTEMBER 17TH

Buy Wise brought hands-on training directly to Pronto Service Center Partner Autobahn Tuning. Technicians from 4 area shops joined Dan Mirocco and the Garage Gurus Van to address catalytic converter failures, warranty concerns, and fuel system issues that can cause repeat failures. Professional shops deserve professional training- wherever it helps most!

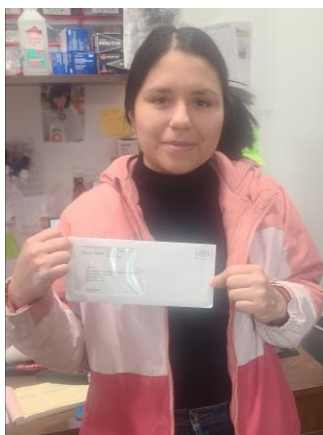

Winner, Winner...

ADVANCED ENGINE MANAGEMENT DIAGNOSTICS

PRESENTED BY NGK/NTK

WEDNESDAY, OCTOBER 7TH 6:15 PM

Costa Del Sol
2443 Vauxhall Rd, Union, NJ

KEY POINTS COVERED:

- Streamlining the diagnostic process using real-world data and case studies to effectively communicate vehicle diagnosis to the service advisor.
- Discussing the inputs, processing and outputs at the core of today's engine management platforms.
- Understanding fuel trims: Domestic vs. Import, OEM generic vs. OEM, to fast-track diagnostics and identify the root causes of drivability issues.
- Maximizing scan-tool data PIDs and applying logical methods to streamline diagnostics on domestic and import applications.
- Navigating domestic and import vehicle systems drivability diagnostic steps, and scan tool data PIDs to ensure the vehicle is repaired correctly the first time.

AUDIENCE TYPE:
Geared toward the average B+ technician and also serves as an excellent refresher for A-level technicians. While this is semi-advanced training, we are dedicated to meeting the learning needs of all skill levels.

Real Knowledge. Real Solutions. For Real Technicians!

Our Fall Training Series Continues — NGK/NTK Takes the Stage!

Buy Wise is excited to present our **fourth technical training event**, featuring **NGK/NTK Advanced Engine Management Diagnostics** on **Wednesday, October 7th**. This workshop takes technicians beyond simply reading trouble codes, using **real-world diagnostic strategies** to better understand inputs and outputs, fuel trims, scan-tool data PIDs, and today’s complex domestic and import engine management systems. At Buy Wise, training is about more than selling parts—it’s about helping our customers **diagnose vehicles more efficiently, make better repairs, and become more successful in their bays.**

Real Training. Real Solutions. Real Results.
Another way Buy Wise helps you OWN THE BAY!
